ITALIAN (NATIVE SPEAKER)
ENGLISH (FLUENT ADVANCED)
SPANISH (READING,
LISTENING)

EDUCATION

01/2010 - 01/2014
NATIONAL UNIVERSITY OF
IRELAND GALWAY
PHD MACHINE LEARNING

01/2007 - 01/2009
UNIVERSITY OF BARI, ITALY
M.S. COMPUTER SCIENCE

UNIVERSITY OF BARI, ITALY
B.S. COMPUTER SCIENCE

EXPERIENCE

WORKDAY

SECURITY ENGINEER II

05/2017 - PRESENT

- Automated follow-up actions on vulnerability scanner results (Python).
- Built a development artifacts signing solution (Go-lang).
- Deep Learning algorithm for network intrusion detection paper accepted and presented at the Grace Hopper Celebration conference (Python)
- Deployed an Adversarial Simulator and extended it with new exploits (Python)
- GIAC Penetration Tester (GPEN) and GIAC Web Application Penetration Tester (GWAPT) certifications

WORKDAY

SECURITY ENGINEER I

05/2016 - 05/2017

- Built a actor-based system to create an inventory of development teams' code repositories from several Source Code Management systems (Scala)
- Improved the internal security posture by providing best practices and standards, improving communication of review results and coordination with development teams.
- Best Networking Application Award Winner with my team at the Global Workday Hackathon 2016 - extension of the workday product to add context for justifying expenses with a Slack plugin (Python)
- GIAC Certified Enterprise Defender (GCED) and GIAC Certified Incident Handler (GCIH) certifications

WARATEK

APPLICATION SECURITY ENGINEER

02/2015 - 05/2016

- Security benchmark of the company's main security product (Bash, Python, DAST).
- Contributed to the implementation of a solution to automatically process SAST results (Java, Spring)

INSIGHT CENTRE FOR DATA ANALYTICS (EX DERI) AT NATIONAL UNIVERSITY OF IRELAND GALWAY

09/2010 - 03/2015

- Publications on internationally relevant conference proceedings and book chapters about my research on Sensor Data Mining
- Classification and clustering of sensor data with the purpose of improving the automated selection of most relevant sensors for tracking human activities (PhD Thesis).
- Winner of the 'OpenIoT' and 'SPITFIRE' European Scholarships
- Best Demo Awards winner with my team at the Internet of Things and Future Internet Assembly conference

GOOGLE

SOFTWARE DEVELOPER

05/2009 - 08/2009

Google Summer of Code program selected participant (~1000/6000 accepted applications) and among the 85% of those who successfully completed the assigned project.

- Built frontend, backend, network-communication protocol of a distributed application to improve the handling of software development -related data, activities and issues, using the (Tim Berners-Lee's proposal of) Linked Data format.

VOLUNTEER

RAILS GIRLS GALWAY

TEACHER, FOUNDER AND ORGANISER

05/2013 - 06/2015

2-days Programming Workshop series to build a web-app using Ruby on Rails.

- Awarded 'ITAG Excellence Award - IT in the Community'
- Galway Mayor's Award Nomination
- Curated: 20 volunteering coaches, advertisement campaign, official website, 7 sponsors, 3 invited talks, workshop content, challenges and aftermaths, more than 100 attendees.
